THE SOURCE OF BATHROOM INSPIRATION.

THE BEST WAY TO SHAPE THE FUTURE IS TO INVENT IT.

What will the bathroom of the future look like? It will be smarter. It will include appliances that reduce water usage and save time. It will be space saving and eco minded, with multimedia functions. It will feature a mix of both high tech and economical design. But above all, it will not look like the bathroom of the past. Welcome to 10 years of AXENT.

We continue believe that brilliant ideas will achieve extraordinary results. So, impatient with the status quo, we are driven to find advantage in the new and unexpected. Our struggle against conventional solutions is relentless, but never for the sake of being different, only for the sake of creating something better. This has been a guiding principle since AXENT was founded, 10 years ago in 2008. And it will continue to guide us through the next decade.

Daniel Grob
CEO, AXENT Switzerland AG

LAND OF NATURAL BEAUTY...

… AND UNEXPECTED CREATIVITY.

Amidst the lakes, rivers, mountains and the aesthetic countryside is Europe's most beautiful country, Switzerland. It is bound by the diversity of culture and religions and is the only country in the world with four national languages – German, French, Italian and Rumansh.

While Switzerland may be famous for its awe-inspiring natural beauty it is more famous for producing some of the world's finest cheese, watches, pocketknives and chocolate. And in case you didn't know, the first shower toilet was invented here way back in 1957.

ROLE MODEL
SWISS TECHNOLOGY.

The ingenious idea of creating a control that works like the crown on a Swiss timepiece was born in Rapperswil-Jona, the AXENT European headquarters near Lake Zurich. After months of intensive research and development, countless stress tests and other time consuming engineering challenges the day finally arrived and AXENT.ONE was introduced – the first shower toilet with a multi-functional control button.

AND WHO INVENTED IT?

The Swiss invented it! Who else could have? Swiss inventions have changed the world. From the computer mouse and the zipper on our clothes to x-ray machines and coffee capsules many everyday objects are from Switzerland. Many have become hugely successful, just like the AXENT.ONE shower toilet.

A single control regulates the position and flow of the shower spray, as well as the water temperature. Located discreetly to the right of the toilet bowl, this control is as easy to use as the crown on a Swiss timepiece.

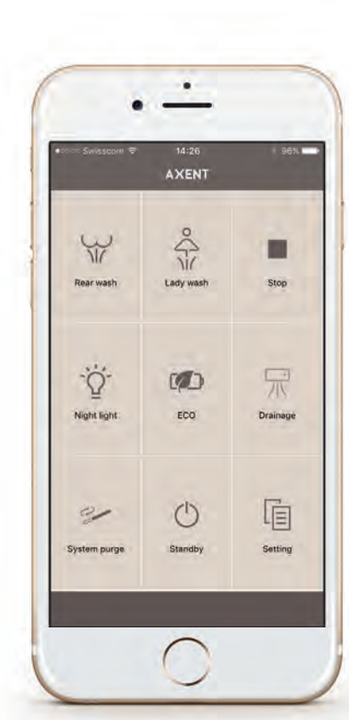
STUNNING DESIGN.
ANY WAY YOU LOOK AT IT.

True icons never set out to be iconic. They just are. Created by the Italian star architects and designers, Matteo Thun and Antonio Rodriguez, this award-winning collection of shower toilets brings you all the luxury that technology has to offer for an unforgettable bathroom experience.

MATTEO THUN & ANTONIO RODRIGUEZ DESIGN

Design awards promote innovation, creativity and product excellence. They also offer an opportunity to build consumer confidence and serve as beacons of good design that users respect and refer to when considering their purchases. AXENT has over the years received many accolades. The most recent include: German Brand Award from the German Design Council, German Design Award, German Innovation Award, reddot award for excellent product design, Design Plus awarded by the Rat für Formgebung, iF design award and Iconic Awards for interior design (Best of Best and winner).

INTELLIGENT TECHNOLOGY AT YOUR FINGERTIPS.



The AXENT Smart Control APP can control any AXENT.ONE shower toilet. Use Bluetooth to automatically connect your mobile device to your AXENT.ONE shower toilet and use it like a remote control - it only takes a touch of your finger. Working like any remote control, the APP allows you to access every function of the shower toilet without touching it. The AXENT Smart Control APP is compatible with every Bluetooth-Android or Apple iOS device. You can edit and save your settings.

Available on the iPhone App Store

The AXENT Remote Control is available for: AXENT.ONE PLUS
AXENT.ONE C PLUS
AXENT.ONE C PREMIUM

MORE THAN MEETS THE EYE.

It is very simple to create something that looks good, but it is very complicated to create something that is simple. Product innovation is as simple as that. Removing the complex in pursuit of perfection epitomises the intuitive design code of all AXENT.ONE shower toilets.

THE BEST SEAT IN THE HOUSE.

AXENT.ONE redefines modern toilet hygiene and transforms a bathroom into a sanctuary of luxury. The stain-resistant surface and the rimless profile help eliminate bacteria, making it easier to keep everything clean. The toilet lid and cover, if heavily soiled, can easily be removed, cleaned and remounted.

AXENT's compact design means that the shower toilet will fit into just about any household setting. It also hides unsightly plumbing and helps reduce water consumption. Cleverly, these shower toilets use about the same amount of water as a modern low-flush toilet, so they are not only kind to the environment, but also help reduce your water bill.

WALL-MOUNTED SHOWER TOILET

AXENT.ONE is a new generation shower toilet with a series of exceptional functions that are all activated using a single control. Located discreetly to the right of the toilet bowl, this control is as easy to use as the crown on a Swiss timepiece. Created by Italian architect and designer, Matteo Thun and Antonio Rodriguez, this remarkable toilet fits into and complements every home and work environment.

FLOOR-STANDING SHOWER TOILET

AXENT.ONE is also available as a floor-standing shower toilet. It has the same functions as the wall-mounted shower toilet and was also created by the Italian architect and designer, Matteo Thun and Antonio Rodriguez. Cleverly, it uses the same amount of water as a modern low-flush toilet, so it is kinder to the environment and your water bill too.

DETAILS ARE NOT JUST DETAILS.
THEY MAKE THE DESIGN.

1

2

3

4

1 **Wash function** // The shower arm is made of stainless steel. A strong but gentle water spray washes you while you are seated on the toilet. The temperature and intensity of the spray can be adjusted easily at the touch of a button.

2 **Self-cleaning** // AXENT.ONE is equipped with a nozzle that is cleaned automatically with fresh water before and after every use, for a more hygienic experience.

3 **Rimless bowl** // The rimless design and stain-resistant surface make AXENT.ONE easy to clean.

4 **Water temperature** // One control for all the functions. As easy to use as the crown on a Swiss timepiece.

AXENT.ONE PLUS

WALL-MOUNTED SHOWER TOILET

For those who are keen to make the most of this relaxing experience, AXENT.ONE Plus provides additional features like oscillating & pulsating spray, adjustable dryer temperature, seat heating, deodoriser and a remote control.

8

5 **Remote control //** All functions can be controlled with the remote control.

6 **Warm air dryer //** The remote control adjust the temperature of the warm air dryer. The resulting gentle airflow across your skin leaves you feeling clean, fresh and dry.

7 **Seat heating //** To maximise your comfort as the seasons change, the seat includes adjustable heating that can be set to your individual needs.

8 **Auto Open (only AXENT.ONE C Premium) //** A sensor automatically opens the toilet lid when you enter the room.

PRIMUS COLLECTION

TECHNOLOGY
is
TANKLESS

TANKLESS TOILET

Primus toilets eliminate the tank and work completely without electricity, saving you space and the world resources. Thanks to our patented VACUUM V FLUSH that is integrated into the ceramic, Primus only uses 5l per flush. It also features a silent seat and our Easy Clean glaze that makes cleaning it a breeze.

Clean, elegant, distinctive. Primus embodies the principles of reductive design – from its ergonomic proportions on the outside to its state-of-the-art technology on the inside.

THIS IS A WORLD FIRST.

1

2

3

4

1 **Economical //** Primus toilets work completely without electricity.

2 **Ergonomic //** Primus has a silent seat and embodies the principles of reductive design.

3 **Easy Clean //** A special glaze makes Primus very easy to clean.

4 **Ecological //** Primus only uses 5l per flush.

TANKLESS TECHNOLOGY VACUUM V FLUSH.

AXENT tankless technology is a breakthrough in toilet standards. AXENT tankless technology not only fulfils leading flushing and water conservation standards while using about 25% less than energy-intensive ceramics, such as conventional siphon toilets, it also eliminates the need for concealed cisterns and energy-wasting, maintenance-intensive electrical pumps.

Primus Smart Flush has an integrated sensor that activates the flushing mechanism without you having to touch it. Simply wave your hand in front of the sensor and Primus Smart Flush takes care of the rest automatically.

UPGRADE YOUR PRIMUS TO A SHOWER TOILET.

Turn your Primus tankless toilet into an AXENT.ONE C Intelligent Toilet with the help of a module seat. You don't have to throw the ceramic bowl away, saving billions of tons of ceramic raw materials to reduce our environmental footprint all over the world. And the conversion is really easy.
